

Sahil Mehta

+91 7506943442 | sahil.m.mehta18@gmail.com | [LinkedIn](#) | [Github](#) | [Certifications](#)

EDUCATION

Sardar Patel Institute of Technology, Mumbai

Bachelor of Technology in Computer Engineering | CGPA: 8.7/10

Minors in Finance and Strategic Management | CGPA: 10/10

Mumbai, India

Aug 2023 – Present

EXPERIENCE

Frontend Engineer Intern - HubbleHox

Jul 2025 – Aug 2025

- Built responsive, user-friendly interfaces using React.js and Material UI, improving product usability
- Collaborated within an Agile environment — participated in sprints, stand-ups, and iterative delivery cycles
- Strengthened product thinking by balancing user experience and performance optimization

PROJECTS

Apex 0110 — Deepfake Detection Platform | *PyTorch, rPPG, React, Blockchain*

[GitHub](#)

- Led a 6-member team to win Smart India Hackathon 2024 by building a real-time deepfake detection system using remote photoplethysmography and CNNs, achieving 98% accuracy with blockchain-backed result traceability
- Mastered end-to-end AI pipeline development from biometric signal extraction and distributed training (DDP) to production-grade React deployment and Docker containerization

IPL Player Prediction — Cricket Analytics Dashboard | *Python, Pandas, Scikit-learn, Matplotlib*

[GitHub](#)

- Built an interactive predictive analytics platform that processes 10+ seasons of IPL ball-by-ball data to forecast match outcomes and player impact, delivering real-time insights with 40% faster computation
- Gained deep expertise in sports analytics, feature engineering at scale, and creating data visualization tools

BullRun — Stock & Crypto Trading Simulator | *Node, React, TypeScript, Firebase*

[GitHub](#)

- Developed a full-stack 24/7 trading simulator with live Finnhub integration and a custom ML-powered simulated market, featuring real-time portfolios and gamified learning modules
- Learned advanced full-stack architecture and scalable backend design under concurrent user load

POSITIONS OF RESPONSIBILITY

Head of Photography, SPARK

2025 – Present

- Led a 15-member team to cover 20+ annual college events including TEDx and cultural fests, delivering high-impact visual content for official channels

Head of Operations, F.A.C.E

2024 – 2025

- Managed end-to-end execution of 10+ large-scale technical and cultural events with 5000+ attendees, handling logistics, sponsorships, and cross-club coordination

ACHIEVEMENTS

Smart India Hackathon (SIH) 2024 — Winner

Sep 2024 – Jan 2025

- Developed a scalable deepfake detection system recognized for innovation among 87,000+ teams nationwide

Dakshata — Operations Strategy Case Competition — National Finalist

Oct 2025

- Reached national finals among top teams by presenting a data-driven supply chain restructuring strategy that reduced operational costs and turnaround time by 28%

Strategia — Consulting Case Competition — National Finalist

Nov 2025

- Secured national finalist position by building a comprehensive Go-To-Market strategy and profitability model using financial forecasting, competitor benchmarking, and scenario analysis at IIT Bombay

TECHNICAL SKILLS

Programming Languages: Python, C, Java, JavaScript, HTML, CSS

Web Development: React.js, Node.js, Express.js, REST APIs

AI/ML: NumPy, Pandas, Scikit-Learn, TensorFlow, Keras, CNN, Matplotlib

Databases: MySQL, PostgreSQL

Tools: Git, Figma, Vercel, Canva, Wix
